DETAILED ACTION

Allowable Subject Matter

Claims 1-8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Statement of allowance is in reference to independent claim 1. All other claims are dependent on claim 1.

The present application is directed to a product ordering system that sets an estimated sales quantity of a product, sets an upper limit value of an order quantity, calculates a cumulative order quantity, and limits orders for the product in excess of the limit value.

Independent claim 1 recites the uniquely patentable feature that the upper limit value for each dealer is set using a predetermined coefficient that is based on the type of a product and at least one selected from the group consisting of a suppliable quantity of the products and a delivery time of the product.

Discussion of the most relevant prior art:

The following references have been identified as the most relevant prior art to the claimed invention.

(i) Dialog File "Automating Distribution" ("Dialog"): Dialog generally discloses a distribution software package that supports receipt of order, order processing, production, scheduling, dispatch and invoicing. However, Dialog fails to teach or

suggest that an upper limit value for each dealer is set using a predetermined coefficient that is based on the type of a product and at least one selected from the group consisting of a suppliable quantity of the products and a delivery time of the product.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
